

Ananya Yadav

Lucknow, Uttar Pradesh, India

+91-7499462585 — yananya012@gmail.com — GitHub — LinkedIn

PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science (Artificial Intelligence) student with strong knowledge of Machine Learning, Data Science, Python, and Web Development. Skilled in data preprocessing, predictive modeling, data visualization, and developing full-stack web applications using Django. Passionate about solving real-world problems through AI-driven solutions, data analytics, and scalable software development.

TECHNICAL SKILLS

Languages: Python, C, JavaScript

Web Technologies: HTML, CSS, Django

Machine Learning: Scikit-learn, Pandas, NumPy, Data Preprocessing,

Data Visualization: Matplotlib, Power BI, Microsoft Excel

Database: MySQL

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Render, Google Colab

PROJECT EXPERIENCE

Restaurant Price Prediction System — Python, Machine Learning, Django

- Processed and cleaned 10,000+ restaurant records using Pandas and NumPy.
- Performed feature engineering and built a machine learning model for accurate restaurant price prediction.
- Created interactive data visualizations using Matplotlib to identify pricing trends.
- Deployed the application using Render for cloud-based accessibility.

Student Dashboard Management System — Python, Django, MySQL

- Developed a secure web application for managing student records, attendance, and academic details.
- Implemented authentication, CRUD operations, and responsive user interface using Django.
- Integrated MySQL database for efficient data storage and retrieval.
- Improved administrative workflow through centralized student information management.

Personal Portfolio Website — Python, Django, HTML, CSS

- Designed and developed a responsive personal portfolio showcasing projects, technical skills, certifications, and resume.
- Built dynamic pages using Django templates and optimized website navigation for improved user experience.
- Integrated GitHub and LinkedIn profile links for professional networking.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering (Artificial Intelligence) 2023–2027
Babu Banarasi Das University, Lucknow Uttar Pradesh(India)

CERTIFICATIONS

- Python Programming
- Machine Learning
- Power BI
- Course on Computer Concepts (CCC)
- C Programming Language

ACHIEVEMENTS

- Ranked among the Top 30 teams out of 200+ participants in the IBM Hackveda Hackathon.
- Built multiple AI, Machine Learning, and Django-based academic projects focused on solving real-world problems.

CORE COMPETENCIES

Machine Learning • Data Analysis • Data Visualization • Problem Solving • Analytical Thinking
• Team Collaboration • Communication • Time Management
